Average Gallon Gas \$ 2.37

Phoenix AZ, November 11, 2008

## AutoGuard Announces GSM-GPS Business Fleet Financing

AutoGuard has the ability to help the business owner finance their fleet and earn savings managing all vehicles on-line. Business owners **recover approximately 54 minutes of downtime per day** when their organization utilizes AutoGuard GSM solutions. This equates to average annual **recouped labor costs of \$5,484 per employee**. GSM enabled field forces **drive an average of 231.2 fewer miles per week** netting approximately **\$51,582 in annual fuel savings**.\* Analysts estimate the Fleet Tracking marketplace to be growing to a **5 billion dollar industry by 2010**. That number can exponentially double if certain legislation passes by state and federal governments. **There's a push from the EPA**, the Department of Homeland security and from other agencies **to mandate some type of GSM/GPS fleet management device on any and all state or federal vehicles**. The talk has been to expand this to Tractor Trailers and any vehicle that hauls hazardous material. Hazardous material can be as simple as insulation taken out of a building that is a certain age so the legislation would be broad.

### About: Worldwide Iron Inc.

WWI Inc is parent company of AUTOGUARD and its business Brands. AutoGuard a proven leader in the aftermarket auto parts showcased its first product at the 2005 SEMA Show in Las Vegas—"the Anti theft Hood latch protector".

This year AutoGuard showcased "AutoGuard Green Fuel System". The system has successfully tested during the show on a dealer SUV. Driven, 510 miles during a live demonstration via a 50" screen, with live feed around Las Vegas City Limits during the show. The Fuel Units offer a patent pending "AutoGuard Green Software" which is working with 70% of all 2008 models on the road. Pending pre-orders exceed 18,000 units. Company spokesperson David Jackson says "The AGGFS system increases mileage 40% guaranteed or your money back. The decline in gas has not changed the demand for our new product". The 4 cylinder model, offered at a special show price of \$795.00 pre-sold 623 units with race enthusiasts.

"We also added 25 new Green dealers. This program is receiving National attention in "Saving the Planet, Lower Greenhouse Gases". Auto Guard's Green dealer network is in the beginning stage, "Rebuilding the American Economy in Green". The national presence, via radio shows, has helped many Americans out of work. The concept is you can operate an Earth Saving Business and Earn while you learn". Offering 84 Eco Friendly products not in any store or online company; the new businesses have a consumer friendly and service E-Store that operates 24/7. Products shipped in 48 hours throughout the United States and the EU countries.
