WorldWide Iron Inc/DBA AutoGuard Tracking Technology

Phoenix AZ, January 8, 2008

WorldWide Iron Inc. has received the Issue Notification for three (3) design patents filed with the United States Patent and Trademark office for the first in its line of Antitheft devices. These Patents cover vehicles manufactured by General Motors. The Antitheft devices protect the hoods from being opened with a screwdriver. For additional information on the antitheft device please visit us on the web at: www.autoguard.us.

The Device Numbers are:

U.S. Patent Number: D557587

U.S. Patent Number: D557108

U.S. Patent Number: D557109

The Patents were issued on December 18, 2007 by the U.S. Patent office.

To view the Patents go to: <http://patft.uspto.gov/netahtml/PTO/srchnum.htm>

The antitheft devices fit 21 models of GM Trucks, SUVs, Hummer H3 and the CTS and STS line of mid-size vehicles manufactured from model year 2000 thru the current 2007 models. With annual unit sales that average five million vehicles per year, the current market for the first antitheft devices is in excess of forty million potential customers and growing with each model year. The value of these three Patents over the next six years could be in excess of \$17,000,000 to the Company. We currently have an additional five antitheft devices in the design process.

About Worldwide Iron Inc.

WWI markets under the AutoGuard brand name. WWI currently has five Autoguard products in the market. We have successfully tested with and secured Corporate Fleet accounts, Small Business Fleet accounts, New and Used car Dealerships and Expediter accounts. The response has been an overwhelming success with fleet customers reporting significant savings in overtime, fuel usage and employees using company vehicles for personal use or running side jobs on company time and weekends.
