## **WorldWide Iron Inc/DBA AutoGuard Anti-Theft Security Accessories**

Phoenix AZ, October 1, 2007

WorldWide Iron Inc. has received the notice of allowance for three (3) design patents filed with the United States Patent and Trademark office for the first in its line of Antitheft devices. These Patents cover vehicles manufactured by General Motors. The Antitheft devices protect the hoods from being opened with a screwdriver. For additional information on the antitheft device please visit us on the web at: [www.autoguard.us](http://www.autoguard.us). Upon receipt of the issuing fee the patent numbers and issue dates will be issued to Worldwide Iron Inc.

“I’m excited we have been able to complete the Patent process. Now we can start the Manufacturing stage of these units to bring to the US market” said, company spokesman Patrick Navin.

The GM antitheft devices fit GM Trucks and SUVs manufactured from model year 2000 thru the current models. With annual unit sales that average 8 million vehicles per year, the market for the first antitheft devices is in excess of sixty million potential customers. We currently have an additional 5 devices in the design process.

### **About Worldwide Iron Inc.**

WWI markets under the AutoGuard brand name. WWI currently has five Autoguard products in the market. We have successfully tested with and secured Corporate Fleet accounts, Small Business Fleet accounts, New and Used car Dealerships and Expediter accounts. The response has been an overwhelming success with fleet customers reporting significant savings in overtime, fuel usage and employees using company vehicles for personal use or running side jobs on company time and weekends.
